If you have been ordered by the Department of Licensing (DOL) or a court to install an ignition interlock device (IID) on your vehicle, you must choose a provider that is using a model certified by the Washington State Patrol (WSP).

The following website lists providers using WSP certified ignition interlock systems:
www.wsp.wa.gov/traveler/interlock.htm

When you call to set up your ignition interlock , you need to be able identify:

- Court name(s)
- Case number
- Reason for Ignition Interlock:
 - Pre-trial condition of release
 - probation condition
 - DOL requirement

The typical cost of ignition interlock will range from \$70-100/ month plus additional setup and recalibration fees.

There are some mandatory fees that may be added to your set-up cost from DOL- (approx. \$20) and WSP (approx. \$10) that should be expected.

Each IID system may vary in the breath test method it uses. See the various company websites to learn more about the available ignition interlock systems.
